INTERNATIONAL

Welcome

Welcome to the IEMA Sustainability Impact Awards 2020, brought to you by our headline sponsor VolkerWessels UK and sponsored by RRC International. The IEMA Sustainability Impact Awards recognise the people and businesses that are transforming the world to sustainability. This is the second year for the awards and IEMA will be awarding 18 trophies to organisations and three to individuals who have excelled in what they do.

We are delighted that you are joining us for the virtual awards ceremony and although we are not able to celebrate in person, we can't wait to commend our shortlist and reveal our fantastic winners for 2020. IEMA would like to thank all the entrants who have put a lot of hard work into the entries and for showcasing the great work you've been doing, what can be achieved and for hopefully inspiring others to do the same. Well done to you all on the shortlist for your effort and achievements so far.

Virtual Awards ceremony

IEMA

Transforming the world
to sustainability

IEMA is the professional body for everyone working in environment and sustainability. We provide resources and tools, research and knowledge sharing along with high-quality formal training and qualifications to meet the real world needs of our members. We believe that together we're positively changing attitudes to sustainability as a progressive force for good. Together we're transforming the world to sustainability.

Thanks to our judges

We would like to thank the panel of judges, who gave up their time voluntarily to judge the entries and we'll be joined by some of them to announce the winners during the virtual awards.

To find out more about our judges please visit iemaawards.net/judges

Thanks to our sponsors

Thank you to our sponsors who have helped make these Awards possible.

Headline sponsor

VolkerWessels UK is a leading multidisciplinary contractor that delivers innovative engineering solutions across the civil engineering and construction sectors including rail, highways, airport, marine, energy, water, and environmental infrastructure.

The company employs approximately 3,000 staff across the country and brings together best practice through five business units: VolkerFitzpatrick, VolkerRail, VolkerStevin, VolkerHighways and VolkerLaser. These business units each have a long and successful heritage built on delivering quality and bespoke projects as well as providing specialist skills, plant and equipment. Our success is founded on our ability to deliver in challenging environments and regularly winning repeat business from established clients.
